

## Energy Health & Harmony

### ARE YOU IRRITATED OR AFFECTED BY:

Mobile phones | Fluorescent lights | Computers | Transformers | Phone Towers | Power Lines etc

### Geopathic Stress

**EMR** - ElectroMagnetic Radiation

**EMFs** - ElectroMagnetic Fields are all around us and affecting our health

### WE HAVE AN ANSWER TO THIS PROBLEM

Tesla's Innovational Technologies

### In search of Harmony

In our chaotic world people are constantly searching for a safe haven where they can find peace. Many attempt to create this haven in their own home surrounding themselves with all the latest digital devices and smart appliances.

We have cars with all the creature comforts and computers. But the atmosphere we try to create eludes us. Many people are strongly aware that something is not quite right, they can feel it, but they can never put their finger on it. They know it's affecting their health. This unseen damaging EMF Radiation is affecting so many people. Adding to our current EMF radiation and Geopathic Stress issues is the introduction of 5G which is to be far worse.

We have encircled the earth and infused the earth's atmosphere with this non-ionizing man made EMF Radiation which doesn't exist in nature. We use unnatural signals, Alternating Current, digital signals, all sorts of odd frequencies, without any understanding of the full biological effects on both the earth and its inhabitants.

Nikola Tesla invented AC electricity and this is what he said:

**"The Alternating Current I have invented will prove to be the most dangerous thing on earth and I must find an alternative."**

## WHAT IS GEOPATHIC STRESS?

**GEO** - the earth **PATHIC** - creating illness

### Geopathic Stress Can Be From Above Or Below Ground

#### Below ground stress:

Dry faults or ley line (earth energy lines) Under ground water (subterranean streams or rivers). Underground water carries electromagnetic (EM) frequencies, making it difficult to sleep over.

#### Above ground:

Electromagnetic frequencies from radar, satellites, mobile phone and communication towers, electrical sub-stations/transformers, high voltage power lines, wind farm turbines, solar panels, etc. *Geopathic Stress* has been found to be the common factor in most serious long term illnesses and physiological conditions.

Various doctors in Europe, who between them have investigated over 10,000 cancer patients, found 92% were living in a Geopathically Stressed environment.

Dr E Harman MD in 30 years of practice, has not yet come across a seriously ill person (with exception of disease caused by virus, bacteria or infected injuries) who has not slept or stayed for long periods in an environment of Geopathic Stress.

The most common indication of Geopathic Stress from both above and below ground are:

- 1 Always feeling exhausted
- 2 Depression, nervousness
- 3 Pallor and allergy to foods
- 4 Resistance to medical treatment
- 5 Not wanting to go to bed, disturbed sleep
- 6 When in bed, feeling cold or suffering cramps
- 7 Grinding teeth or sleep walking
- 8 Rheumatism
- 9 Asthma

### Finding the answer

After much research and development there is an answer to our polluted EMF atmosphere.

We call it the **5G Large Oyster House Kit** - as it assists clients to cover their house, car, phones, water and bodies in Tesla's products clearing the Geopathic Stress at an affordable price.

**Now you can enjoy the atmosphere your body craves.** This is a once only purchase which will last your lifetime and beyond. It is transportable, therefore ideal for the rental property and when you move house you easily take it with you.

Tesla's products can be used in the work place to improve productivity and relationships.

### 5G Large Oyster House Kit

- **4 Phone Tags** - alters biological effects coming from mobile or cordless phone transmissions.
- **2 Personal Pendants** - strengthens the auric field, helps concentration & also helps A.D.D children to cope without drugs.
- **Pocket Plate** - helps with minor pains or bruises & can be used to alter the taste of water.
- **Car Travel Plate** - helps alter the aggressive fields coming from the electronics in cars.
- **5G Lge Oyster House Plate** - helps households cope with Geopathic Stress, EM Radiation & air ionisation.
- **The Stabiliser** - fits on to a power cord and turns the chaotic frequencies in the wiring to coherent.
- **The Water Kit** - puts life force into tap water, tastes & feels like rain water (no ongoing costs.)

### Nikola Tesla

A Serbian-American scientist, who developed Alternating Current (the AC electricity used today), Radio, Fluorescent light, Radio Imaging (the precursor to radar), Rotary engine, Bladeless Turbine, Seismology, Remote-control, etc to name just a few. He was without doubt one of the world's greatest inventors and for this reason, out of respect and admiration, the company producing these products has been named Tesla's Innovational Technologies.

### What is EMR or EMF?

**EMR** (ElectroMagnetic Radiation) is a term used to describe an invisible form of man-made frequencies, transmitted through the atmosphere. Some common forms of EMR are TV and Radio waves, Microwaves, Radar, X-rays, etc.

**EMFs** (ElectroMagnetic Fields) is a term used to describe the invisible electric and magnetic fields radiating away from man-made alternating electrical current. EMF radiate from all electrical appliances in the home, office or factory, in cars, trucks and buses, also overhead tram and train lines.

Science now acknowledges many things that are invisible to the senses and once considered harmless, (radioactivity, microwaves, etc) are now known to be harmful. Communications and Electricity have become so much a part of our lives, it is hard to question their unseen effects.

### Electricity and Humans

Water containing minerals is a very efficient conductor of electrical energy. The human body being approximately 75% mineralised water is a proficient collector and conductor of electrical frequencies. Our body's transmission reception is the same as all electrical frequencies - radar, radio, microwave (mobile phones) etc. Just as TV and radio reception can be affected by external electrical interference, so too can our body. We humans have a very delicate electrical system, which can be interfered with by our electrical surroundings. This interference can contribute to energy imbalances within our bodies.

### Testing Products

Tesla's has commissioned independent bio-energy testing, using Kirlian Diagnostic Photography (Russia) Micro Capillary Microscope (China), Prognosis (Germany), Acutec Ryodoraku (Australia), EEG, ECG.

Tests do show that the products appear to increase or decrease the bio-energies in appropriate areas, which may encourage the body to detoxify, thereby aiding the body's natural healing potential.

The products offered by Tesla's are used by many practitioners, (naturopaths, vets, chiropractors, massage therapists, kinesiologists Chi-Gong and Bowen practitioners, etc) and most use our full range of products to help de-stress their patients, themselves and their environment.

The vehicle testing has used the Eco-Tee Infrared 5 Gas Analysis, Coda 5 Gas Analysis and Infrared Thermometer with laser.

Tesla's products are manufactured in Australia and sent worldwide.

### HOW TO CONTACT US

Energy Health & Harmony Pty Ltd

☎ **0411 704 676** (Richard)

*No healing properties are claimed for any of the Tesla's Innovational Technologies products, but in providing an energetically improved environment, a person currently receiving treatment from their practitioner should find the treatment enhanced or more effective. These products are not listed as therapeutic and in no way promoted as curative. Any recurring ill-health symptoms should be discussed with your health practitioner.*
